

Windy 2006 innovations

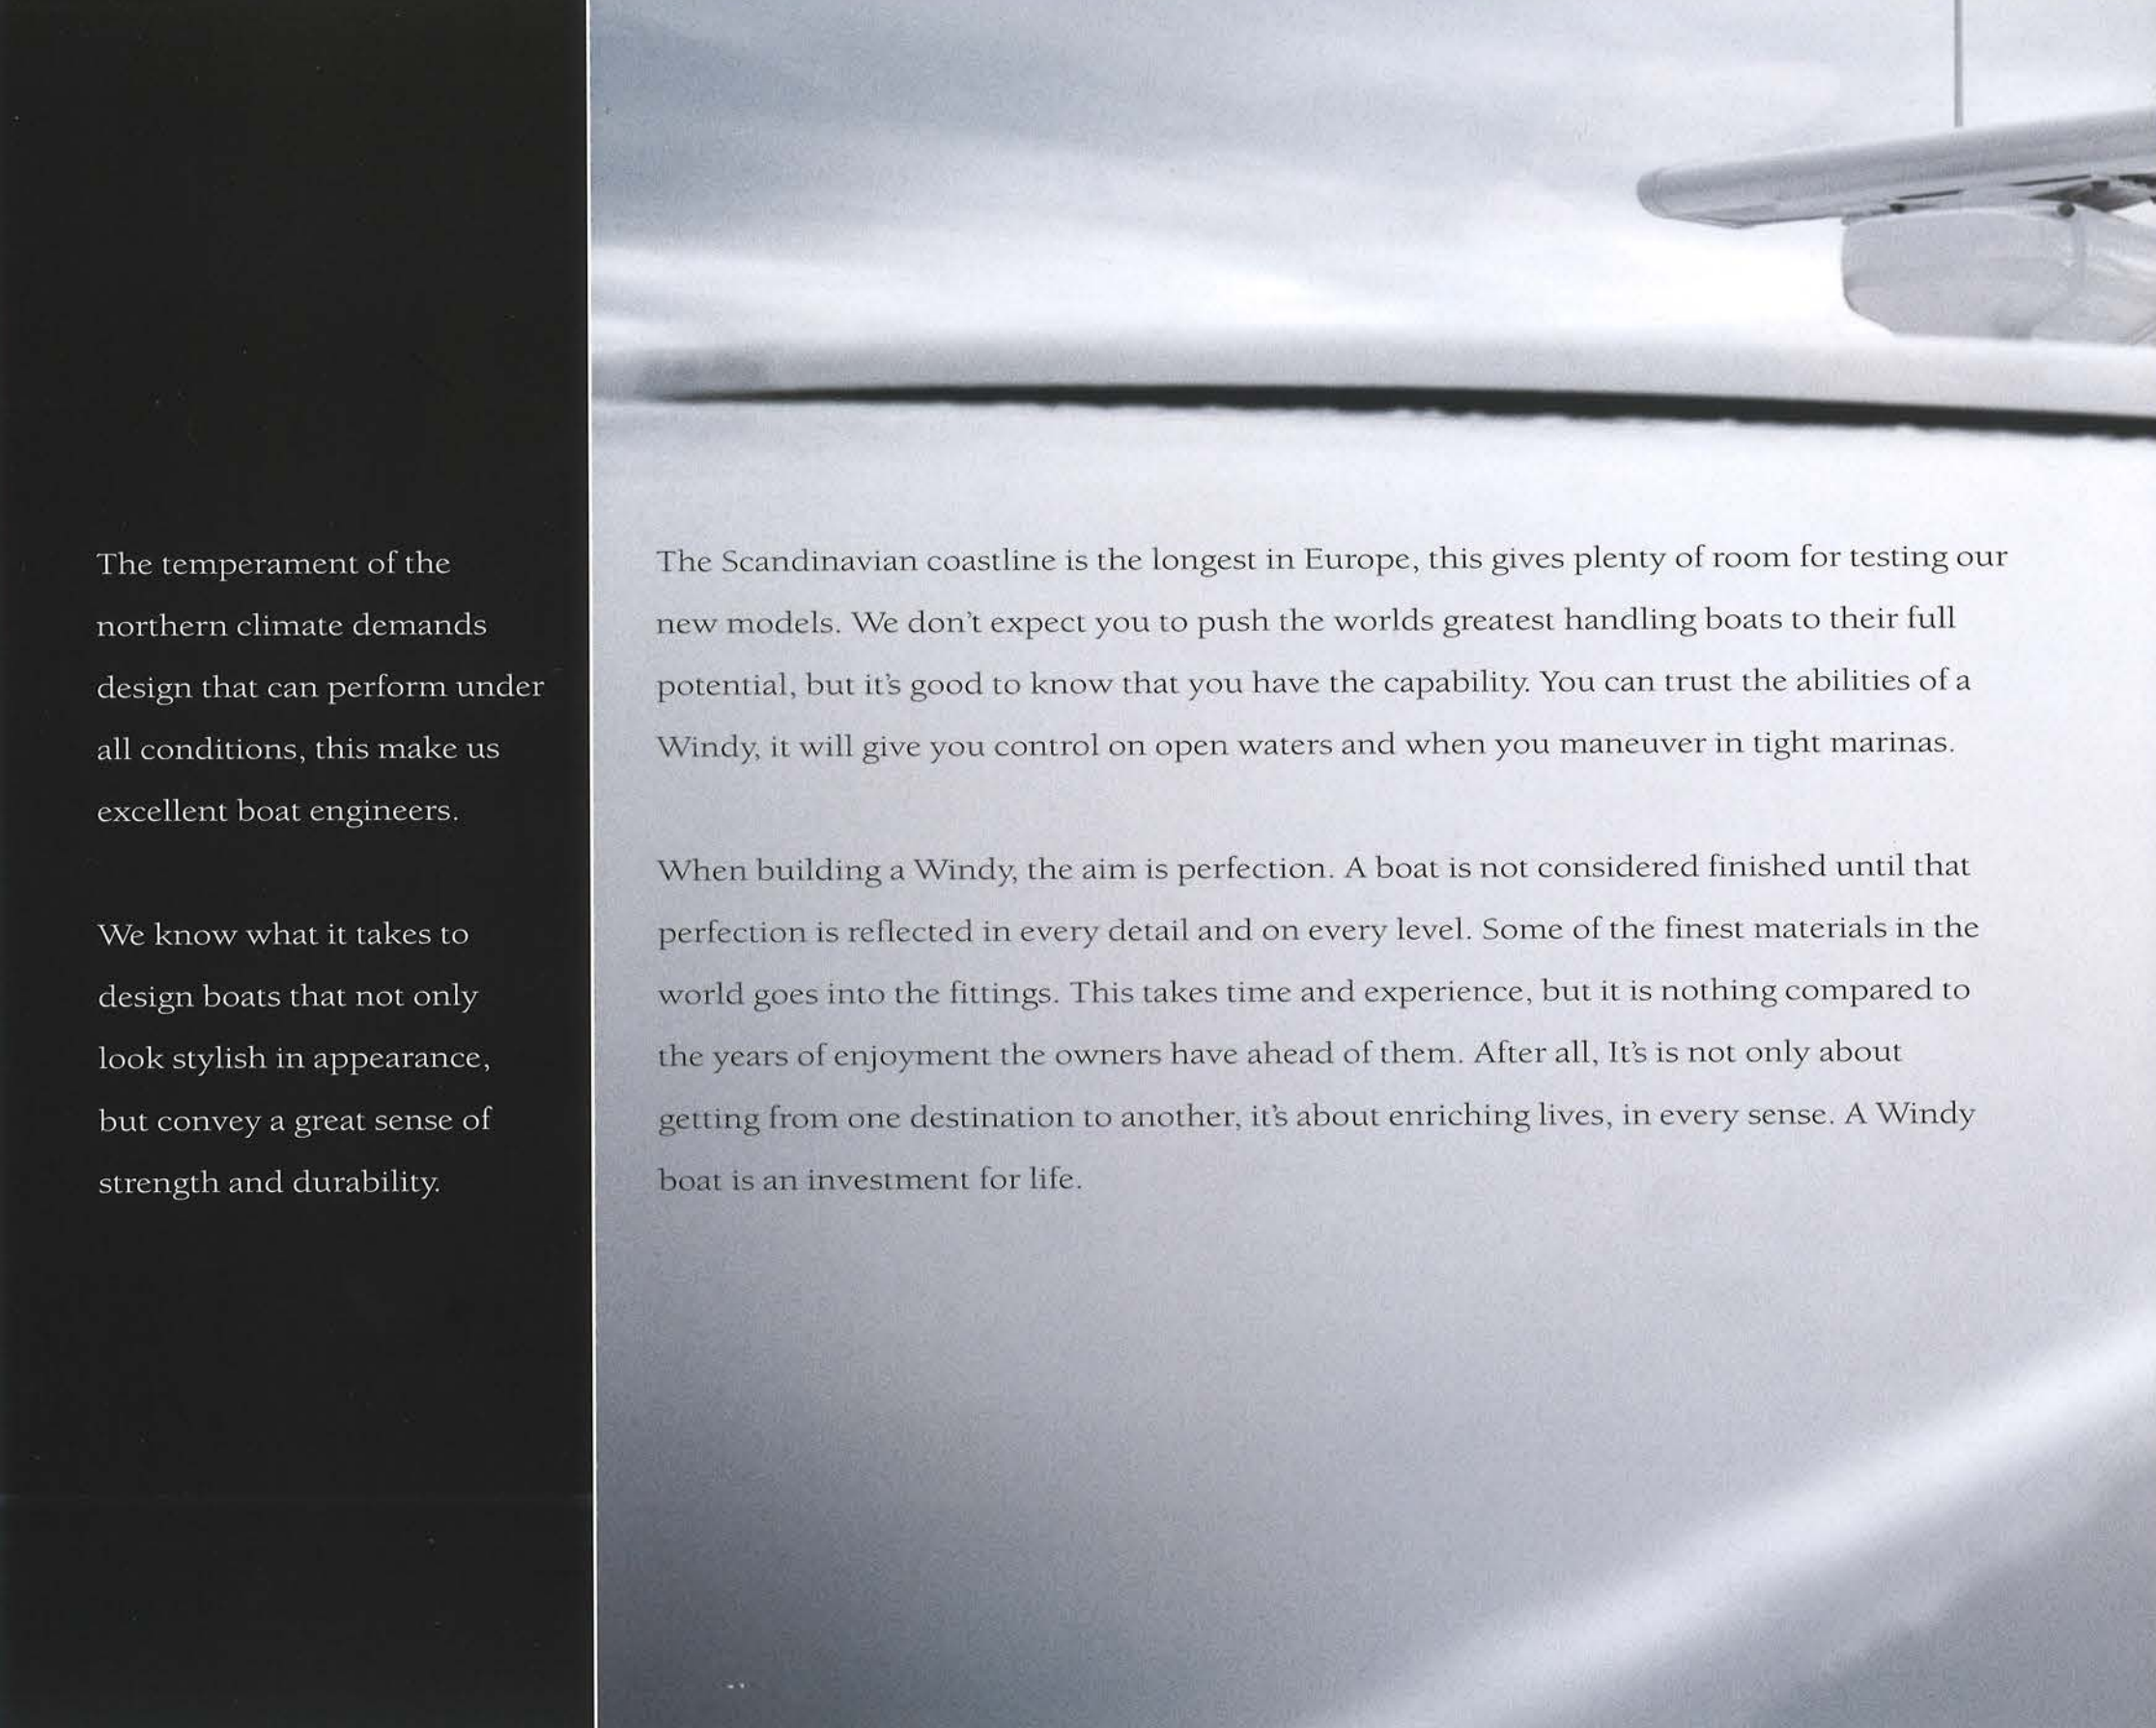

We proudly present you with the latest innovations to the Windy fleet

- 58 Zephyros
- 53 Balios
- 52 Xanthos
- 42 Grand Bora
- 37 Grand Mistral
- 35 Khamsin
- 33 Scirocco
- 32 Grand Tornado

Windy sportscruisers are one of Scandinavia's most compelling symbols of seaworthiness, unrivalled in terms of their maritime quality. We take great pride in our heritage. The magical and spellbinding beauty of the Scandinavian landscape is an endless source of inspiration.

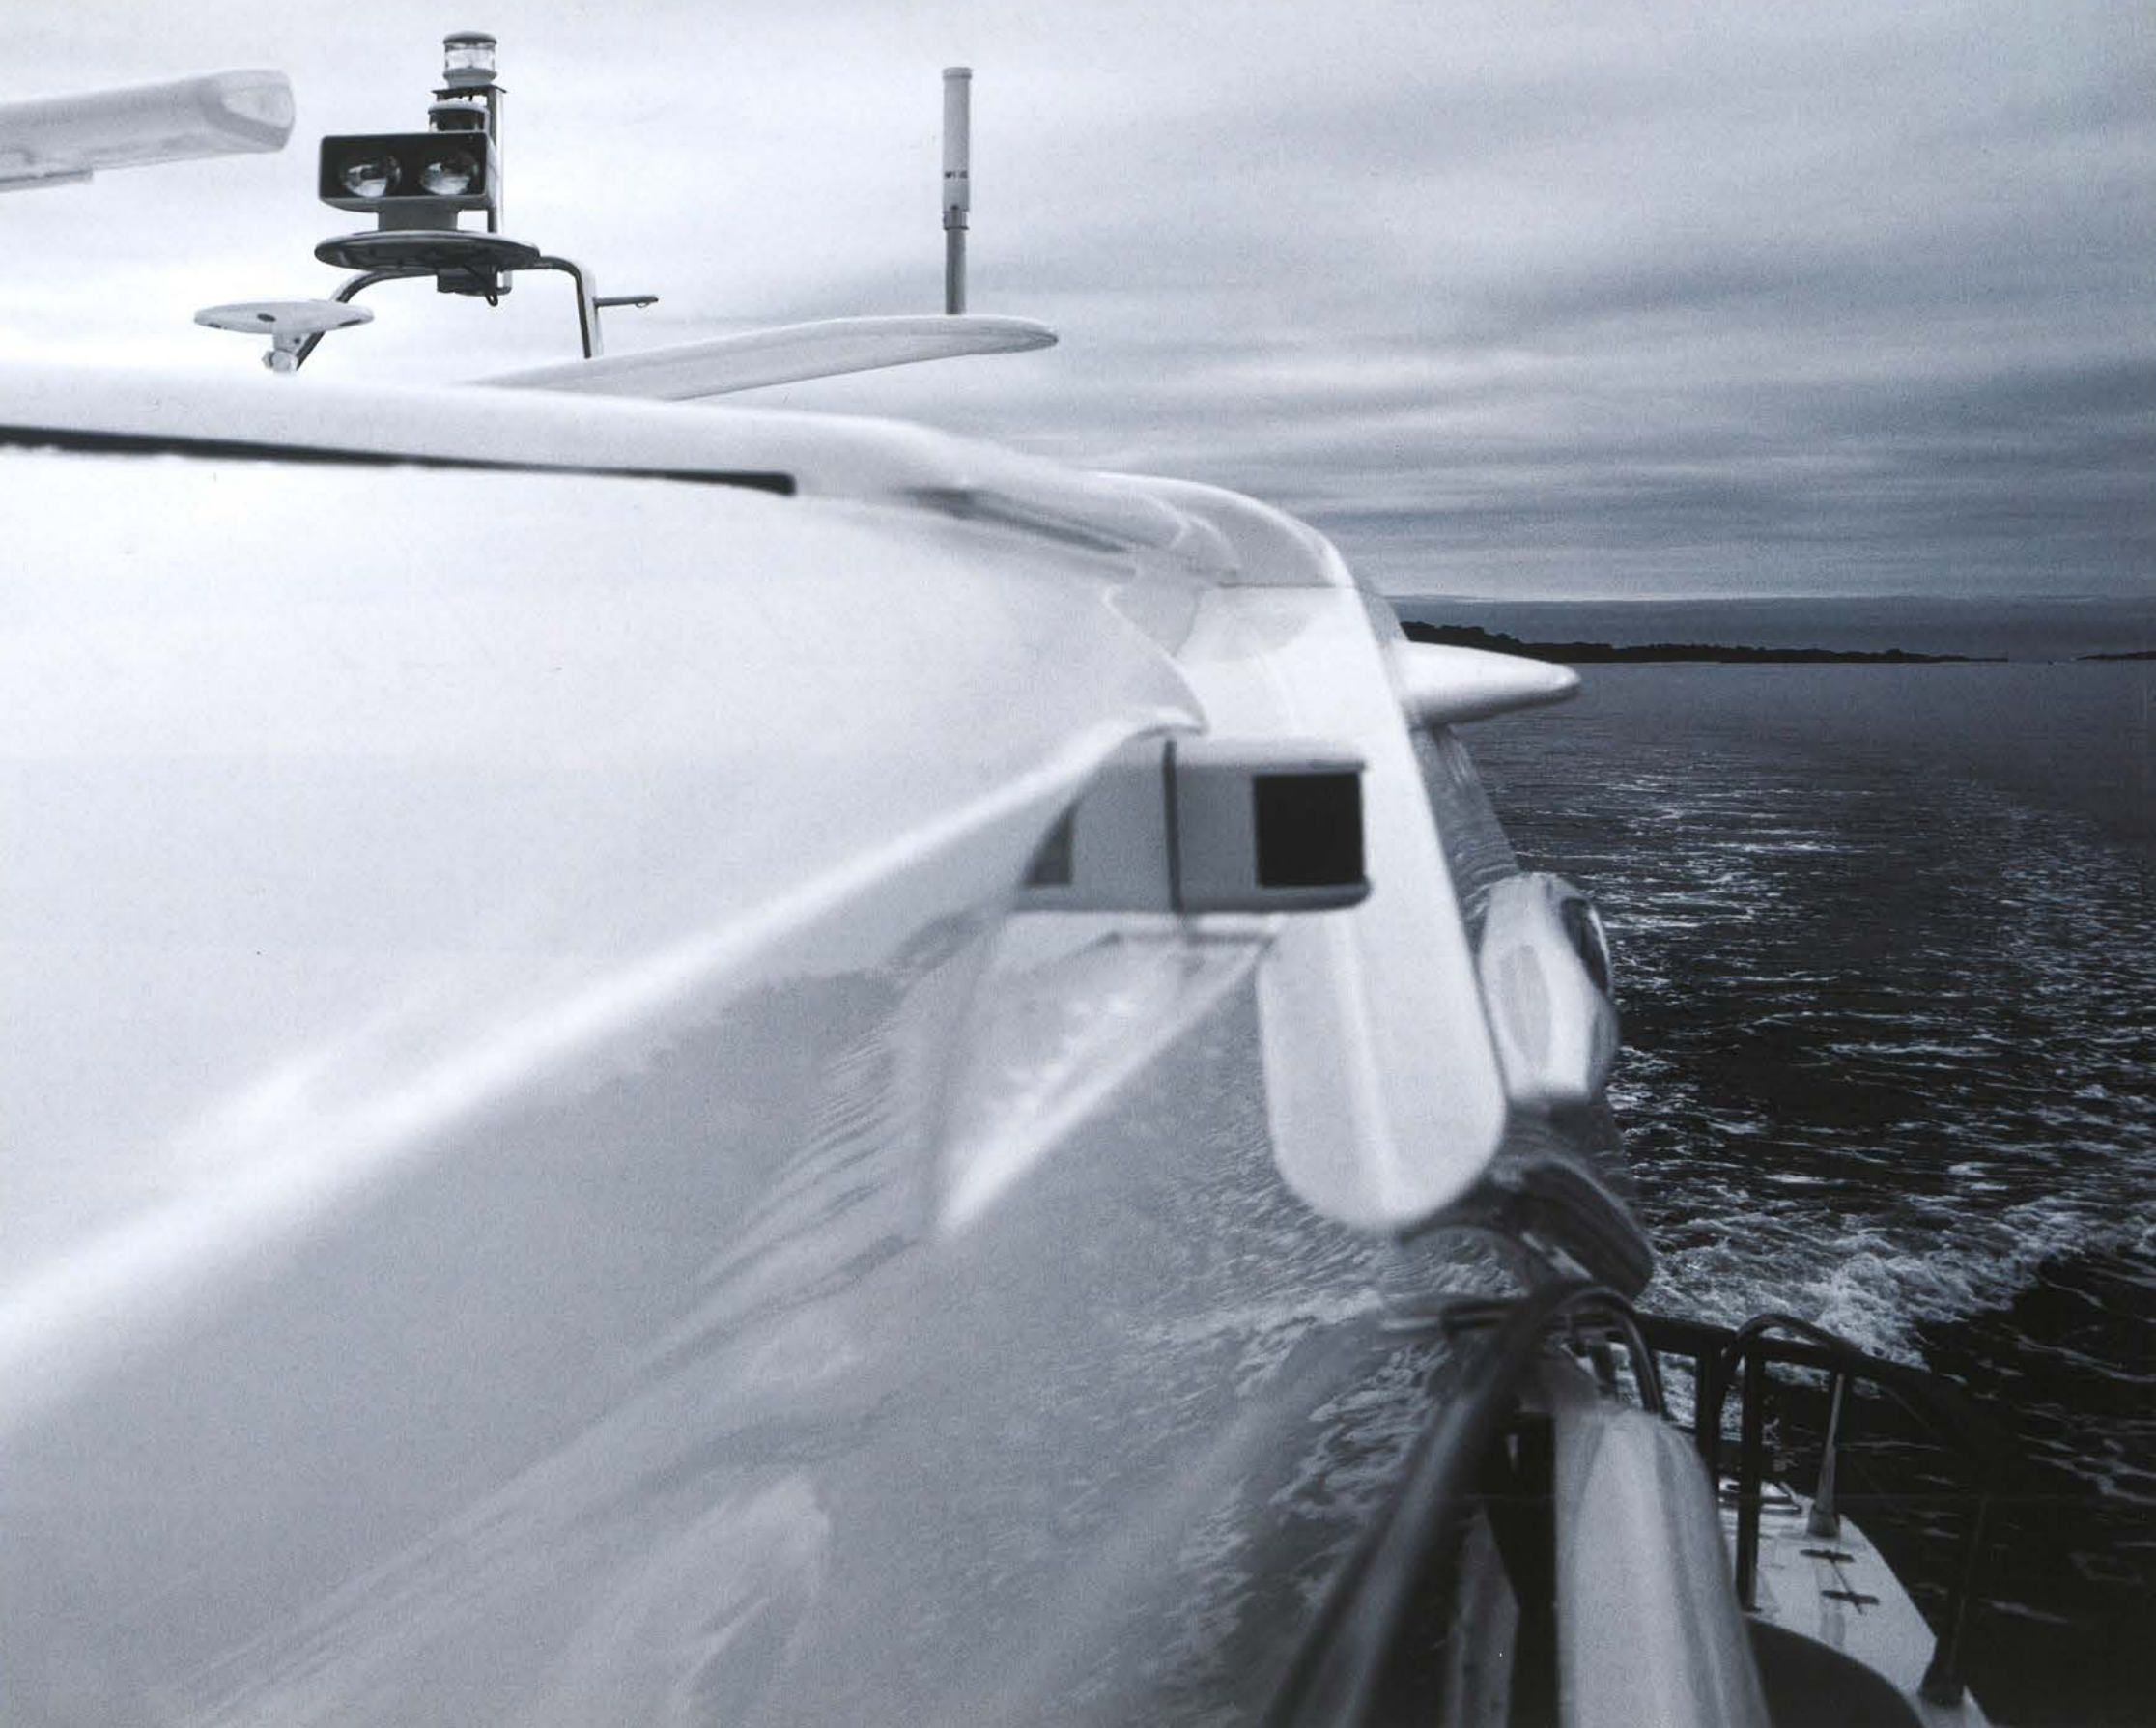

The temperament of the northern climate demands design that can perform under all conditions, this makes us excellent boat engineers.

We know what it takes to design boats that not only look stylish in appearance, but convey a great sense of strength and durability.

The Scandinavian coastline is the longest in Europe, this gives plenty of room for testing our new models. We don't expect you to push the world's greatest handling boats to their full potential, but it's good to know that you have the capability. You can trust the abilities of a Windy, it will give you control on open waters and when you maneuver in tight marinas.

When building a Windy, the aim is perfection. A boat is not considered finished until that perfection is reflected in every detail and on every level. Some of the finest materials in the world go into the fittings. This takes time and experience, but it is nothing compared to the years of enjoyment the owners have ahead of them. After all, it's not only about getting from one destination to another, it's about enriching lives, in every sense. A Windy boat is an investment for life.

Windy 58 Zephyros

Spirit of Scandinavia

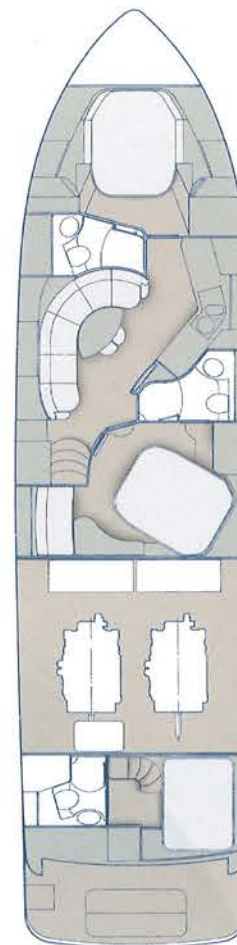

Zephyros was the Greek God personifying the West Wind, whose father represented the night sky by which to navigate and his mother the dawn.

Windy 58 Zephyros is the most advanced cruising boat built by Windy. Each luxuriant detail blends seamlessly with the next. The exterior is sleek and sophisticated with flowing lines, and the interior is built to no lesser standard, with the luxury and comfort you would expect to find in a stylish penthouse apartment. Only the best materials have gone into the fittings of this boat.

News: A large u-shaped sofa, table and chairs form a comfortable seating area.

News: New aft layout and aft cabin.

***Maximum speeds will vary depending, but not conditional on the cleanliness of the hull, load on the craft, water and air temperatures, sea conditions and other factors.*

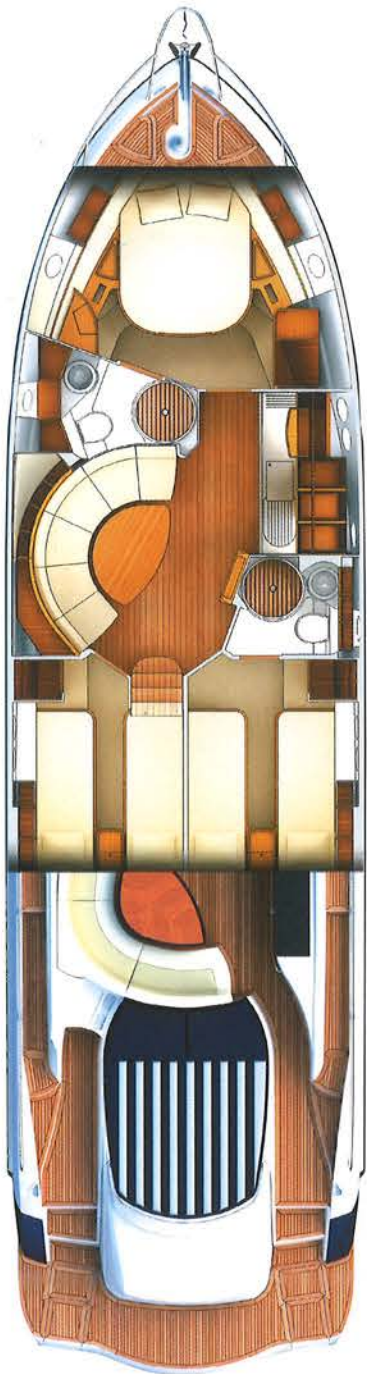

sa balios

Windy 53 Balios

The new Windy 53 Balios is like the 52 Xanthos, designed to be both functional and luxurious. It is fitted with a fully equipped main saloon, large master bedroom with en-suite shower/toilet and two separate centre sleeping cabins; one with en-suite shower/toilet. All woodwork is in high quality gloss and silk mat finishes. 53 Balios also has a Garage for dinghy and a large aft sun bed.

Windy

Windy 52 Xanthos

According to Greek mythology, Xanthos - born of Zephyros - was one of two immortal horses that drew Achilles' chariot during the Trojan War.

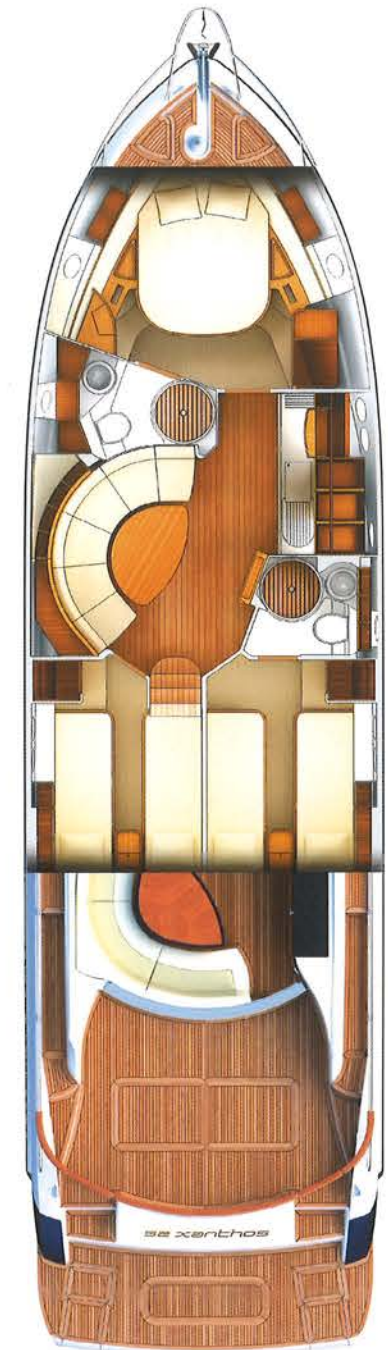

52 xanthos

The new Windy 52 Xanthos is a bold progression from the Zephyros. It has all the recognised sea-keeping capabilities of smaller Windy creations, and is both functional and luxurious. 52 Xanthos is fitted with a large master bedroom with en-suite shower/toilet, a fully equipped main saloon and two separate centre sleeping cabins; one with en-suite shower/toilet. All floors and interior woodwork is of highest grade wood in glossy silk mat finishes, also the spacious aft deck.

Windy 42 Grand Bora

The Grand Bora demonstrates symmetry between form and function. The well designed cabin use the space efficiently with plenty of room for lively family mornings as well as sophisticated evening parties. The Grand Bora is popular for its great endurance, stability and performance. Grand Bora is fitted with exclusive Italian woodwork and cutting edge equipment.

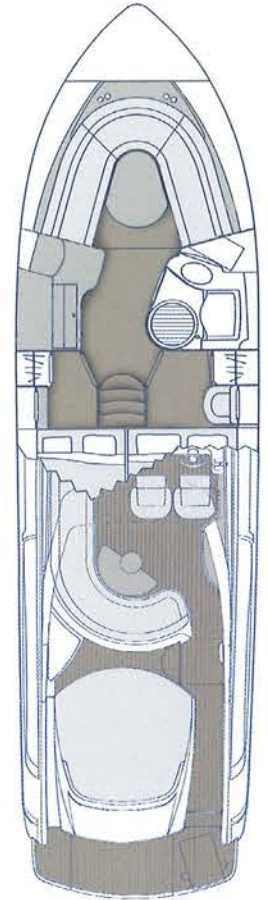

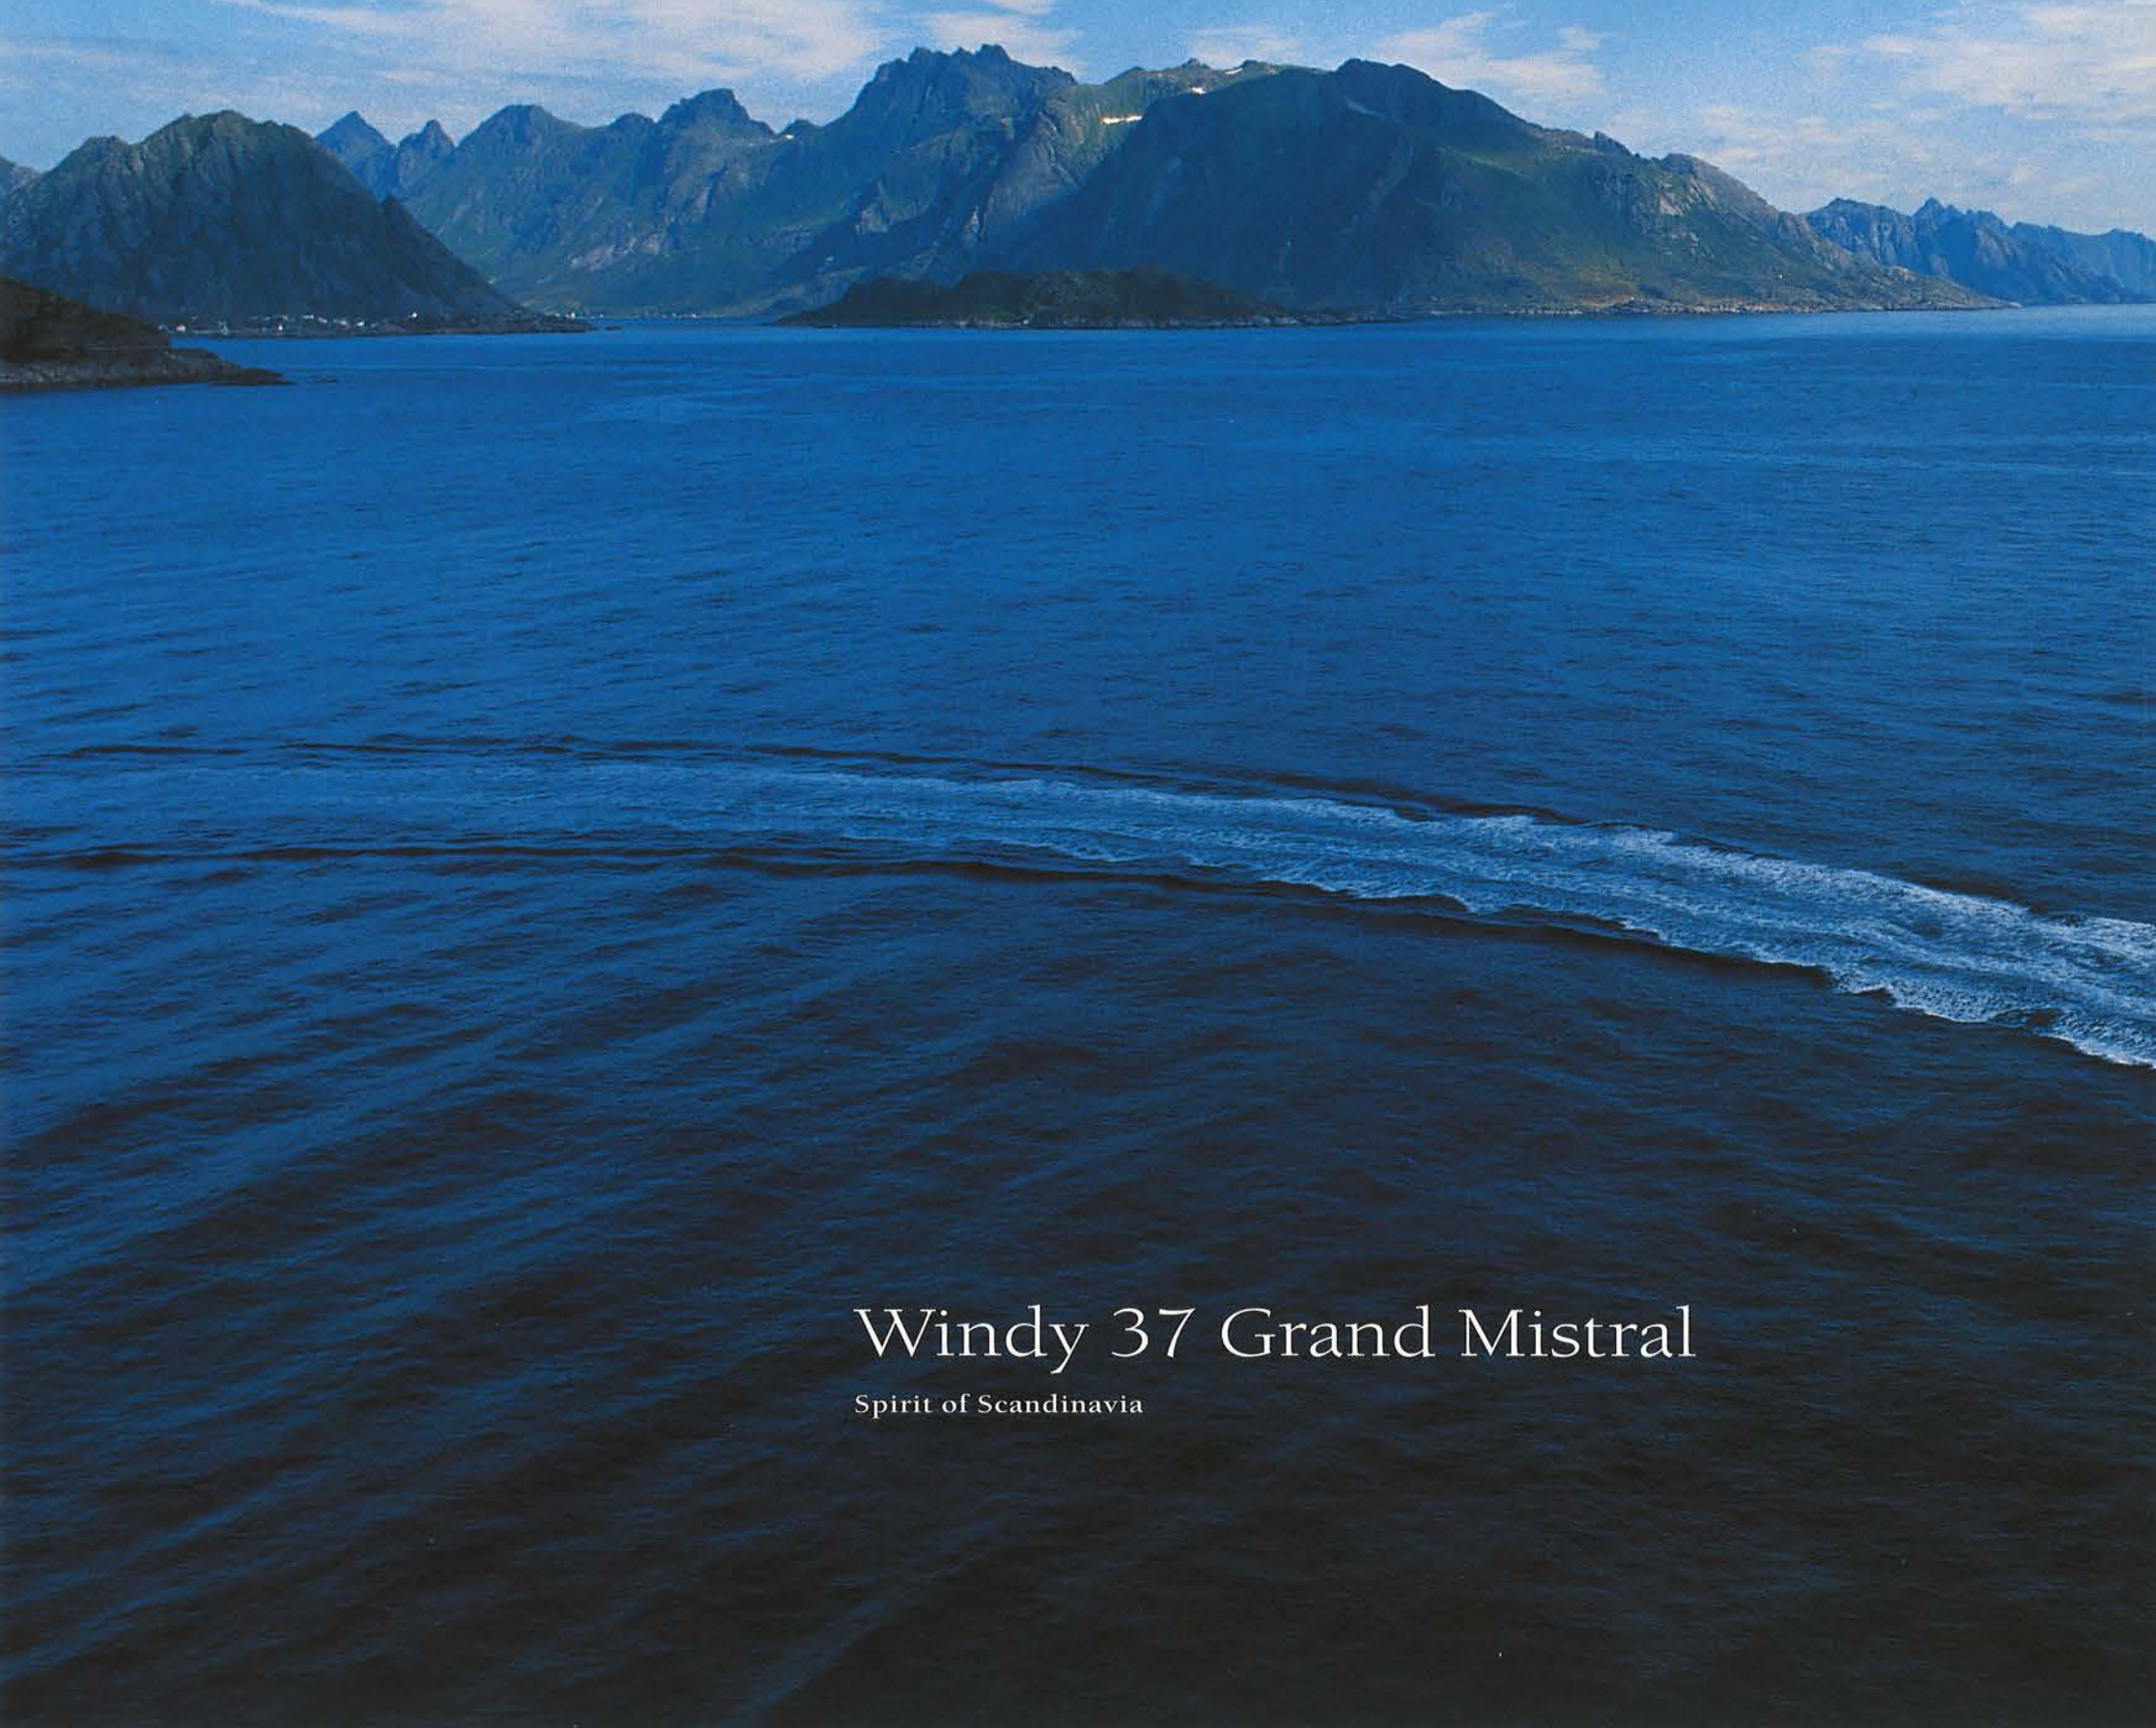

News: Extended hull to improve overall speed performance and optional equipment. Parts of the bathing platform is integrated in the garage hatch. The entrance from bathing platform into cockpit can now be found on the starboard side. Much easier access to engine room from starboard side. New black galley top and a gas cooker in the pentry.

CE

All our models are CE approved. This means that Windy complies with all the EU standards for quality assurance, documentation and product liability. During the preparatory period that ended with final approvals being granted in the summer of 1998, the company introduced new working methods and construction principles, and more modern production equipment. As a result, our internal processes are now more cost-effective and more focused on quality. Nevertheless, Windy is above all else a 'boat builder', and not a 'manufacturer' of boats. This attitude is reflected by all our manufacturing personnel, our service facilities and also our network of agents and dealers.

Our boats are certified by RINA (Registro Italiano Navale), which is one of Europe's foremost authorities for certifying the quality of leisure boats.

WinTecTM
Hull Performance Technology

Technology - Windy boats are made using traditional craftsmanship, but are more advanced thanks to modern technology. The latest technological development is the WinTec concept, which gives the hull better performance, greater strength and reduced noise. The hull is reinforced with an advanced multi-axial fibreglass mat and inlaid Divinycell. This reduces the boat's weight by as much as 20 per cent, and also improves its stability considerably. WinTec has been introduced as a standard feature on our latest models.
